AstinusMan 22/03/2019 In addition to being an outstanding production value in terms of visuals, RING provides a great sense of the story as well as the general atmosphere. Each scene takes place in a new and distinct world with

extensive artwork that carries the perfect atmosphere for it. Each and every new event that occur or character that pop up has its own unique charm. The background details in the game are amazing. The individual magic names, magic level, level, and so on were re-recorded. Considering how much time had passed since the Final Fantasy X/X-2 Remake, I have to say that it's pretty impressive and I'm glad that Square Enix recorded every bit of the names.
