So spasswd013rar is the best one of all! He is knowledgeable, nice, helpful and a cool person, I can trust him, and he does as he says! He always supports me. I highly recommend him, I do not know what would I do without him! sasch23 [HOT] nile. allcock. devsong123 [HOT] I did post several times for help before I managed to figure out what the problem was, so I can only hope that this small update helps others who may be running into similar problems. Sorry for the delay. INSTALLATION INSTRUCTIONS: Open iMovie '11' application. In iMovie '11' application, click on Import from Camera. Select Import From Camera. From here, follow the on-screen instructions. When importing video files, select all the video clips that you want to add to iMovie. Drag the video clips into the library. Select all the video clips that you want to add to iMovie and then click the Add button, to add them to the library. When finished, export iMovie '11' video file to a suitable location (for example, ~/Desktop/iMovieVideo) so that it can be viewed outside of iMovie '11' application. Enjoy! IMPORTANT: To extract the MOV video files contained in the RAR/7z archive, you'll need to download 7Zip, which is an application in the Extra category. The process is simple: Download 7Zip from the below link: 7Zip Setup and Run. In this message, you may not have the installation file; download it from the 7-Zip setup page. Open 7-Zip, select the Repair button, and open the 7z archive. In the 7-Zip window, select the "Add to Archive..." button. Press the "Enter" key to add the compressed files to the archive. When the archive is finished, a "Save As..." dialog box will appear. Navigate to a suitable location (for example, your desktop) and create a folder or select a suitable folder. Highlight

the folder and then click "Save." Double-click the 7z file to decompress it, and then drag the decompressed file to 7-Zip. In the dialog box, click
