The column of the report that needs to be filtered is a Vlookup of a field in

a Table. Therefore my report needs a filter on the ID of the record in the Table. I can't seem to get the syntax right. I have tried several variations but nothing works. All I can get is "ID doesn't exist" or "Expected Expression" which I'm also not sure if I get it right. Filter current on the table =QUERY.getValue("[DataBase].[tbl_TableField].[ID];0") This is how I'm trying to filter my data Filter "tbl_TableField" on ( tbl_TableField.ID = [DataBase].[tbl_TableField].[ID]; ) This is how I'm trying to use the filter
