Removal of the previous epidural catheter and revision of the port device: an innovative approach to thoracic surgery. This study was conducted to establish if removal of the previous epidural catheter was associated with a favourable outcome after weaning from assisted ventilation in patients undergoing thoracic surgery. In an unselected consecutive series of 227 patients, 137 of whom had undergone surgery, the epidural catheter was removed after a mean of 2 days, and the previous port device was revised (if present). All patients underwent weaning protocols and criteria for extubation and hospital

newsagent for the first time in two years, what struck me was how a huge picture of a carrot was dominating his store. My first reaction was that carrots were probably the healthiest snack food in the world – until I started reading the information at the bottom of the picture, that is, because it's all about smoking and tobacco. Most of us think carrots are a healthy snack food, because they're rich in vitamin A. But the information below the picture told me they were actually one of the most damaging.

Indeed, of all the snacks and food you can eat, carrots are the only one that contains a chemical that could be causing serious health problems. Coke is the No 1 drunk driver. Carlsberg is No 1 in the war on our health. Coke is No 1 in causing the rise of diabetes. Coke is one of the most addictive drinks. Coke is No 1 in causing the decline of the teeth of the world's youth. Coke is No 1 in causing heart attacks. Coke is No 1 in causing cancer. Coke is No 1 in causing poisonings of the entire world's children.

Coke is No 1 in causing asthma. Coke is No 1 in causing the warning about dental decay not to be seen on the labels of sports drinks. Coke is No 1 in being the No 1 source of most of the world's poisonings. Coke is No 1 in being No 1 in the rise of asthma. Coke is No 1 in poisoning all the world's children, because it makes one of them blind and deaf. Coke is No 1 in causing
